Time it tells, living in my hometown Wedding bells, they begin easy Live it down, baby don't talk that much Baby knows, but baby don't tease me

In the park, we could go walking Drown in the dark, or we could go sailing On the sea

Always here, always on time Close call was it love, or was it just easy Money talks, when people need shoes and socks Steady boys, I'm thinkin' she needs me

I was just, sippin' on somethin' sweet I don't need, political process

I got this feelin' that they're gonna break down the door I got this feelin' that they're gonna come back for more

See I was thinking that I lost my mind But it's been gettin' to me all this time And it don't, stop, draggin' me down

Silently reflection turns my world to stone Patiently correction leaves us all alone And sometimes I'm a travel man But tonight this engine's failing

And I still hear the children playing [Kick the can, kick the can skip and play jacksSteal a car, and ring around RosieRock and roll, Candy Land boogiemanRun away, and give me your sneakers]

Acid rain, when We began, the weeping and wailing A hurried high, from pestilence pills and pride It's a shame, we could have gone sailing

But heaven knows, heaven knows everything Tranguilize

I got this feeling that they're gonna break down the door I got this feeling that they're gonna come back for

I got this feeling that they're gonna come back for more

See I was thinking that I lost my mind But it's been gettin' to me all this time And it don't stop draggin' me down

Silently reflection turns my world to stone Patiently correction leaves us all alone And sometimes I'm a travel man But tonight this engine's failing

And I still hear the children playing Dead beat dancers come to us and stay

[Lou Reed]: 'Cause I don't care where you been And I don't care what you seen We're the ones who still believe And we're lookin' for a page In that lifeless book of hope Where a dream might help you cope Where the Bushes and the bombs Uh huh, tranquilize
