You want a warning  
You got a warning  
You want a warning  
You got a warning

Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut

You want a warning  
Ya' got a warning  
Stab your back

You want a warning  
You got a warning  
Stab your back

You want a warning  
You got a warning  
Stab your back

Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut

You want a warning  
You got a warning  
Stab your back

Hey, fuck the people  
Hey, fuck the people

Last moon a cigarette  
Hang myself on a chandelier  
Laughin' at another on a funny thing

Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut

You want a warning  
You got a warning  
Stab your back

Hey, fuck the people  
Hey, fuck the people

Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut

You want a warning  
You got a warning  
Stab your back

Last moon a cigarette  
Hang myself on a chandelier  
Laughing at another on a funny thing

Bet you something I can get your mouth shut  
Bet you something I can get your mouth shut

You want a warning  
You got a warning  
Stab your back

Hey, fuck the people  
Hey, fuck the people  
Fuck the people  
Fuck the people
