Somehow I knew that this would
End and then I finally found my way
Back home. This is all one master plan
To keep us spinnign down this endless well...
I'm drowning in my own regrets
I'm trying to so hard to take what's
My last breath. This is all I wanted
From you. So alone and now I'll have
You know...If you can stand on your
Own two feet then you can get
Up off your fucking knees. Stand up and wash
Away the blood that stains your soul.
You've given me reason to tear you apart.

Now you can't fix...what's already broke
I'll have you know. Don't surrender,
Never give up your life.
You lied about your pride in self.
I pushed from inside your skin I eat you waya
From within. You'll never see the sun again.
I'll have you know...look away from this
Broken mirror...now the time has come to
Slow the beating of this heart.
