When it came to pass,
Loaded, pass me by
Fate, with a single blow,
Has clustered by me now
True, I had my chance,
True, true, true I had those wild charms for you
Oh, oh...
My fire burned them out
But we will not be moved by it(2x)
Your mind would never ache,
When you were young and sound
The way your heart aches now,
You feel you sent them onto ground
Love, love, love til you got enough,
Dance, dance, dance, if you got no love around you
Love, love, love, til' you got enough,
Dance, dance, dance, til' there's noone left to hound
you
We will not be moved by it(2x)
Oh, oh...
Love, love, love til you got enough,
Dance, dance, dance, if you got no love around you
Love, love, love, til you got enough,
Dance, dance, dance, til' there's noone left to hound
you
We, we will not be moved by it(4x)
