"Hook And Line"

With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away

Try your best in your heavy shape
Keep it quiet, keep it cool
Lipstick letters and souvenirs
Make a mockery of your fears

With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away

Try your best to make it matter
Tattoo it in the clouds above you
Mail it down with jealous bolts
Take a ___ like a feather upon its own

With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away

Come and show
___ low
Whip a crack
You won't come back

With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away

With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away
With your hook and line,
us to blow away
