I wanna know what is to be
To see what lifes cut out for me
Im waiting for my fate
cause I know Ive done wrong
I wanna know just whats in store for me

I wish I had a crystal ball
To see my rise and see my fall
Ive done a lot of right,
But also done some wrong
I wanna know just whats in store for me

And so Ill wait a while
And wait a little longer
Ill just have to wait and see

I think a lot but Ill stop trying
Ill just get old before my time
Ill live the life Ive got
But I dont sleep at night
I wanna know just whats in store for me

Ill live the life Ive got
But I dont sleep at night
I wanna know just whats in store for me
I wanna know just whats in store for me
