Well I tried to settle down Fulham Broadway  
And I tried to make my home in Golders Green  
But I gotta get that train  
And go back home again  
Oh how I miss the folks back home in Willesden Green

You know, I tried, I really tried to settle in this big city  
And I always thought I could make it all on my very own  
But there's one thing that keeps calling me  
To that little, that little semi-detached  
That's the folks, yeah, the folks back home  
In Willesden Green
