I know you failed us for quite some time  
because your thoughts and feelings doesn't match  
your afraid of things you can't control  
to watch the world your lying down  
alcohol and medicine wont work  
you don't know where to go or where to stop

it will take some time, some time

it will take some time, some time

When you close your eyes  
you sleep from fear  
and if nightmare shows up  
you'll have to down  
in front of a car  
to wake up  
when it all comes down to it  
it is the same that we fear  
when it all comes down to it  
its the same
