Tracy, if we make it, we'll make a difference  
Clocks will make it hard, carve numbers in our age  
Let's start running backwards like our brothers  
From our neighbourhood  
They'll say we are dancing, but we aren't

You revolt!  
You revolt!

Reversed began racing, became heroes  
You clutched someone else's hand  
Saw grandeur in your eyes  
Matching bandage, kids followed, now we were leaders  
But we drowned in the sound of marching, of marching  
Yeah, we drowned in the sound of marching

If you don't know where you're going  
You don't know when you will arrive
