"Do You Love Me Still"

Visit "[Do You Love Me Still](#)" on [MotoLyrics.com](#)

I have thought that you have come back lately
to take my soul away from me
cause when i see you
you rip my heart out
but all the same you're not to blame
baby baby i love you still

but i need your heart beating next to my heart
in love i am
i need your heart beating next to my heart
in love i am

do you remember how i met you child
i was down and i fell for you completely
when i wanted your heart and
you didn't want me now you did
but now you did

i need your heart beating next to my heart
in love i am
i need your heart dancing next to my heart
in love i am

baby do you love me still
cause i miss you
i miss you'
baby
i miss you
