Upside down  
I give it up for this love I found  
Who understands and may never be found  
I'm touching out to you  
To touch out to me  
You're energy  
I should try to never put you down  
I hate that I'd rely on someone's suffering  
You will always have a hold on me now  
The things that you do  
There's no one quite like you  
I see you all from the back of my hand  
I break it down with the use of these sounds  
I like to crash through these lands  
With you  
I seen a lot I seen it all the way down  
I felt the weight of the seven day crown  
Don't judge something if I don't understand  
I don't understand  
I will try to never put you down  
I hate that I'd rely on someone's suffering  
You will always hold a place for me now  
The things that you do  
there's no one quite like youuuuu  
Youu don't understand me  
Love really should be outstanding  
Love really should be outstanding  
Love really should be outstanding  
Love really should be outstanding  
Love really should be outstanding  
Love really should be outstanding  
Love really should be outstanding
