Sits just right, when you are around
Take a drive, take a drive to town
Meaningful, nothing but you
Petulia, you are in my blood again

Like a hurt undone
Like a love without a sound
Like a heart beat
Moving through me

Sits just right, life on my brow
Take it low, take a drive to town
Meaningless, everything but you
Petulia, let's make a wish

For a hurt undone
A love without a sound
Like a heart beat
Moving through me

Like a heart undone
Like a love without a sound
Like a heartbeat
Moving through me (through me)
