You better call your agent  
This could be a number one  
By september  
It could go Platinum  
You say there's a market  
For this kind of stuff  
It isn't the same but  
It's the same enough

Do we look like we give a fuck  
Did you think maybe we'd give this up  
We don't care if we're going against the grain  
We wont dumb this down to sound the same

You say you saw our video  
And you really like it  
You spoke to finance  
You think they'll buy it  
We sound so now  
You think it's viable  
And? say we're accessible

Do we look like we give a fuck  
Did you think maybe we'd give this up  
We don't care if we're going against the grain  
We wont dumb this down to sound the same

Do we look like we give a fuck  
Did you think maybe we'd give this up  
We don't care if we're going against the grain  
We wont dumb this down to sound the same

Do we look like we give a fuck  
Did you think maybe we'd give this up  
We don't care if we're going against the grain  
We wont dumb this down to sound the same
