(V1)

I thought I was a loser
That I wasn't good enough
I could not see how You could care about me
Or how I could deserve Your love

(V2)

But You, You specialise in comebacks
And over time You've made me see
That even though I may not be perfect
You will not give up on me

(CH)

Your love, love is like a beetroot stain
That never ever goes away from me
Your love, Your love is with me everyday
I know Your love is here to stay with me

(V3)

Things can get a bit confusing
But there's one thing that I know
That You will stay, You really care about me
And You will never let me go
