"Island"

You take me to an island
Far from all my cares
Not really a place more
In my heart somewhere

When I look into your eyes

I feel peace around me
Soft rain upon dry waste
A river of life flows
Through my emptiness

When I look into your eyes

You take me away into your grace
Deep in the light and life I'm lead
You give me peace give me rest
To have you with me is all that I need
The rush of your flooding spins me 'round
Your hope will lift me off the ground
