(V1)

When I am with you - it's like
All my dreams have just come true
Even though I've known you for a while
Tell me is it true - do you
Feel the same way that I do
Do you feel the same cause I'm in love
And it's easy to see
That you will always be

(CH)

My forever smoochy girl - please tell me is it true
My forever smoochy girl - do you dream about me too
My forever smoochy girl - do you feel the same as me
My forever smoochy girl - cause you will always be

(V2)

Put your hand in mine
Cause we're gonna stand the test of time
You know my heart belongs to you alone
When we're eighty-two
I will still be chasing after you
Round and round and round the old folks home
And it's easy to see
That you will always beâ€¦!

(BRIDGE)

You and me together - we will always be the best of
friends
I'll love you girl forever, my love for you will never ever
end
