Well I've always been the first round here  
To have the latest gadgets  
and the bestest gear  
Me tele were the biggest of them all

But the bloke who lived next door to me  
He went and won the lottery  
He got five numbers and the bloomin' bonus ball

He's a jammy sod  
He were at bingo last week got three lines

Well I weren't dead jealous  
'cos he blew the lot  
He invited us round to see what he'd got  
And when I popped in me jaw it hit the floor

He had so much stuff it made me one to vomit  
It looked like he'd gone and ram raided Comet  
I went into his house and this is what I saw

He had a plasma tele and a Dolby 5.1  
He had a stereo that were Bang & Olufsen  
His satellite was Sky HD  
Every room had a PS3  
He had a plasma tele and a Dolby 5.1

Without a word of a lie I'm telling the truth  
Even his fridge had Bluetooth  
It were wi-fi this and hard disk Blu-ray that  
He had a lobster phone  
And it were fab  
He could watch Jeremy Kyle sat on the lav  
I'm suprised he didn't wi-fi up the cat  
(Miaow!)  
It's a bit, It's a bit too far to be honest  
Technologies taking over!

Well his bedroom had a projection TV  
It were like home electronics hour on QVC  
He'll buy out now just because he can  
I say's I've never seen one of them before

He said don't spread it around but that's a Playstation 4  
They're hard to get hold of but (click) I know a bloke in  
Japan  
He's from the East!

He had a plasma tele and a Dolby 5.1  
He had a stereo that were Bang & Olufsen  
His satellite was Sky HD  
Every room had a PS3  
He had a plasma tele and a Dolby 5.1

Come on kids here we go get it up

KIDS:

He had a plasma tele and a Dolby 5.1  
He had a stereo that were Bang & Olufsen  
His satellite was Sky HD  
Every room had a PS3  
He had a plasma tele and a Dolby 5.1

BACKGROUND:

Sing for your supper it's rice pudding tonight  
Spoon of jam in the middle  
Goes pink when you stir it  
Beautiful  
Hypnotic  
Go on kids give it to em

He'll hear you
