"The World Needs More Love Letters"

Visit "[The World Needs More Love Letters](#)" on MotoLyrics.com

We got something to say about everything.
And you got everything right in your little brain.
The news they found in magazines, They all sing
something new.
??

The world needs more love letters,
The world needs more love letters,
Get yourself some pen and paper now.

Please don't give up on my new campaign,
Sin puts in ??
Common sense in TV screens,
They all say something new.
Coincidence, anomaly, there's a difference?

The world needs more love letters,
The world needs more love letters,
Get yourself some pen and paper now.

The world needs more love letters,
The world needs more love letters,
I'm sure that you'll find some feeling in there somehow.

??
Don't you, don't you know
Things will get better for you?
Don't you, don't you know
Things will get better?

The world needs more love letters,
The world needs more love letters,
Get yourself some pen and paper now.

The world needs more love letters,
The world needs more love letters,
I'm sure that you'll find some feeling in there somehow.

I'm sure that you'll find some feeling in there somehow.
