Walk swift  
As the light shifts  
Dampen my lips  
Wet earth on my fingertips

Past the flicker of lights  
On moonlit nights (I can see nobody else)  
Parading down  
Is the sorry crown  
(Who's to know where she could go?)

[Refrain]  
I am tiptoeing, no way of knowing  
Take everything, save for my heart

She weeps  
As the day creeps  
Sandman crosses  
Up a flight of stairs  
He blows his kisses

[Chorus]  
Walks are long and lonely  
Down midnight city  
The streets are dark and empty  
Down midnight city
