Hesitation was the station I used to get on at.
Now it's asshole. Can you picture that?

"Fuck You" and "Thems" have fucked up.
An idiot who can't keep his mouth shut.
Oh shit! Oh fuck! it's dicks to suck.
Well, bend me down, I'll pucker up.

Take A chill pill lover, or you're gonna explode.
Take two of these too and you'll find that I know...
That what you learned on your trip to the zoo is
That animals do what animals do.

What A great way to die, what A sad way to cry.
You'll tell me "I Love You" And I'll know it's A lie.
What A great way to die, what A sad way to cry.
You'll tell me you love me...
And I'll know it's A lie.
