The sway and swell  
Flee with her motion  
Red-gold across my arms  
The vicious strokes i painted  
A river fills your heart  
I'm sorry if i let you down  
I know just how you feel tonight  
This is never what you wanted  
I was searching for myself  
In other people's eyes

The mirror's telling half truths  
The stolen words finally feel like mine  
Swollen and sweating (sweating)  
Off time (off time)  
I can see it in your eyes  
An ocean floods my heart  
I'm sorry that i let you down  
You know just how i feel tonight  
This is everything i wanted  
You've been searching for yourself  
In other people's eyes

The revisionist  
Never gets it perfect  
Never gets it perfect  
The revisionist  
Never gets you perfect  
Never gets you perfect

Time is never right  
The words are never right  
[2x]
