Come on little girl,  
You know you're making me twirl  
And I know you've got tricks up your sleeve,  
But you've got me hypnotized.

(something)  
(something)  
Now you really gotta (something)  
But you've got me hypnotized.

Well, it never was the way I thought you would be  
Now I'm seeing through spotted eyes.  
Well, it's so fun if I tell you everything I do  
Well, I guess you can't take the lies.

Well come on little girl,  
You know you're making me twirl  
And I know you've got tricks up your sleeve,  
But you've got me hypnotized.

(something)  
(something)  
Now you really gotta (something)  
But you've got me hypnotized.

Well, it never was the way I thought you would be  
Now I'm seeing through spotted eyes.  
Well, it's so fun if I tell you everything I do  
Well, I guess you can't take the lies.

Well, it never was the way I thought you would be  
Now I'm seeing through spotted eyes.  
Well, it's so fun if I tell you everything I do  
Well, I guess you can't take the lies.
