Say we'll go out, but you forget
I finally left home yeah smoking pot, yeah reminds me
of you,
But I can't get my mind off of you.
Your memory is gone, your
Now it's been too long, it's easy for you to forget me
too,
But I can't get my mind off of you.

She's got the type to make you SOMETHING

She's all about the fun and rock n' roll.
I just want to hang and get to know,
This is hard to do
And I can't get my mind off of you

When it comes time for making plans
She just walks away or sits and stares
And I thought you knew
That I can't get my mind off of you

She's got the type to make you

Say we'll go out, but you forgot it,
I finally left home, yeah, smoking pot
But now we won't be true
But I can't get my mind off,
Of what you do
Of what you do
