I put you on
when we were breaking up
put you on when we were making up
you're my favorite record and i'm crazy about you
i played you
as i fell down from love
play you while i fly back up
you're my favorite record and i'm crazy about you
even if i am a fool
fool to fall, fool to fall in love
i don't care i 'm crazy about you
all the little things
that used to bother me
make up your individuality
you're my favorite record and i'm crazy about you
i thought we'd never last
but we're growing fast
thought we'd take it slow i hope you know that
you're my favorite record and i'm crazy about you
chorus
save me the next song
and find me when i'm lonely
play me your best song
i'll keep you on the stereo and sing you in my sleep
i'm ready for
some good news
ready for a change of tune
you're my favorite record and i'm crazy about you
i played you
as i fell down from love
play you while i fly back up
you're my favorite record and i'm crazy about you
