Vernon fell off his bike today  
And I can't believe that a year's gone by  
I remember us drinking his warm beer  
And how he was always teasing me  
Nothing special, he was a friend

Jimmy called and said he was in traction  
He was hurt pretty bad he said  
Maybe we'd better go and see him  
I said I didn't want to see him that way  
Nothing special, he was a friend

We'd sit at the shop and he'd play these records  
I'd never heard before  
I bought a bike and we were going to go riding  
As soon as I could learn  
Nothing special, he was a friend

A couple people told me that Vernon was dead  
I mean "passed away"  
Our fiend is "no longer with us"  
See you at the wake  
Nothing special, he was a friend

I ride by your house sometimes  
I always say hello  
I don't sit at the shop anymore  
And I've never been to a funeral  
Nothing special, he was a friend
