Lift me up
and hold me up high
let my arms reach up to the sky
i grab a cloud and then i hold on tight
you can try to pull with all your might
but i won't let go
i'm a spaceman
like a rocket
shot out into space
seems to be the best way out of this place
all this great big world i'll circle round
without the thought of ever coming down
and i'll be so high
i'm a spaceman
the final push
to send me all the way
far beyond the stars of the milky way
traveling all alone where day is never light
maybe one day i can make it right
and i'll feel so high
i'm a spaceman
