i'm not shouting, i'm just talking  
you're not listening, you're just walking  
take one into, got a number,  
it won't erase out the other

and i'll stop it, i'll stay then  
i'll never be the one you love

count your blessings  
stop your whining  
must have met you,  
perfect timing  
i just waited for an answer  
you're open and you're still out dancing

i'll stop it, i'll stay then  
i'll never be the one you love, the one you love

i'm not shouting, i'm just talking  
you're not listening, you're just talking

i'll stop it, i'll stay then  
i'll never be the one you love  
i'll stay then  
i'll never be the one you love, the one you love  
the one you love  
the one you love  
the one you love
