[Cover]

One more time with  
I stood in a field I looked to the sky  
I saw a strange object up flying so high  
It circled around so lively and quickly  
I knew in a moment that  
It must be sent St. Nick

But to my surprise I saw two big eyes  
As black as the night she was a sight  
She was the prettiest girl that  
I've ever seen  
She had a big head and her skin was bright Green I fell  
in love with an alien girl  
And she never cheated on me

Said she'd be mine till the end of time  
Then she went and left me behind  
The government came and gave me a hard Time  
Said hiding a martian was federal crime  
What can I do  
Where could she go  
Where could she hide  
I'll always know  
She said in her voice she made up her choice  
She'd go back to Mars you know  
I'm caught behind bars I sit in my cell  
I look to the sky I think about her and  
I start to cry  
I fell in love..... I fell love.....
