Under the bright blue  
Endless Sky  
Wait, I remember that  
How I know that song  
I remember sitting in the moonlight  
And that feeling  
What's that feeling?  
I remember, yes  
How I know that song  
Though it's been so long  
I remember happiness  
Without a floor or ceiling  
What's that feeling?  
I remember  
Oh! I remember her  
And how we were  
I remember wanting  
What the evening would be bringing  
I remember singing  
Under the bright blue  
Endless sky  
Waves try to measure the days  
That we treasure  
And I  
I remember  
I remember music  
And I'm never going back  
To the silent law they wrote  
I will sing in every tempo  
Every last chromatic note  
For I, I remember her  
I remember music  
And I remember  
Love  
Loveeeee
