I'm drivin' this truck on a mountain road  
I got a hot rod rig and I'm flyin' low  
My eyes are filled with diesel smoke, hairpin turns ain't  
no joke  
Diesel smoke, dangerous curves

I was out last night drinkin' beer with the guys  
Got an achin' head and blood shot eyes  
I ended up with a pretty little dame, I didn't even know  
her name  
Diesel smoke, dangerous curves

If I'm gonna deliver this hot shot freight  
I gotta get goin' cause I'm runnin' late  
These mountain grades are mighty steep  
Gonna stay awake, can't get no sleep  
Diesel smoke, dangerous curves

There's a cute little waitress at the bottom of the  
grades  
She's got the coffee already made  
I gotta keep my eyes upon the road  
I'm comin' down the hill with a heavy load  
Diesel smoke, dangerous curves

Well I must have closed my eyes for a while  
Cause here I am and I'm runnin' wild  
I turn my brakes, strip my gears  
Gonna have to ride her down I fear  
Diesel smoke, dangerous curves

I wish I'd left the women alone  
But it's too late I'm already gone  
I got myself into this fix  
All because I tried to mix  
Diesel smoke, dangerous curves  
Diesel smoke, dangerous curves
