### "Dreamgirl"

(feat. Norah Jones)

(The following song is brought to you by Chex Mix)

Some dude once said that love is a many funny things  
I know there's a perfect girl out there for me, cuz I see  
her  
in my dreams

Dream girl, you're a fantasy, you're the only one  
Out there for me  
My love

Dream girl you amaze me all dressed in paisley  
Love how not one but both eyes are lazy  
When I first saw you you were drivin' the bus  
Thick skin, strong nose like a rhinoceros

Dream girl so beautiful, lips all crumby  
Skin like asphalt, nose so runny  
Thick thighs, no waist, not a care in the world  
You not crazy girl, you just my baby girl

If you envision in sweats with the neon patch  
Half eaten squirrel hangin' outta your mouth  
Rainbow poncho, the female tonto  
Hear a loud noise drop a bucket like a bronco

Dream girl, you're a fantasy, you're the only one  
Out there for me  
My love

You got your cellphone ring set to Sex and the City  
You like a hot bowl of gritz only way more gritty  
Straight drippin' your turquoise my Santa Fe queen  
One short leg you got the Santa Fe Lean

It's music to my ears when you scream in your sleep  
And when you lift your skirt in public yo I can't help but  
peek  
You like Cleopatra with the eyes of a pig

Love to watch you in the backer when you go out to dig

Girl how'd you get those mouse traps glued to your neck

Little rascal, how'd you get screwed to the deck?

You put away slurpees like a trash can

Your smiles all stinky and your not too brainy and I like that!

Talking to your shoes like it's your friend I like that!

Yellin' at the walls of make pretend I like that!

Tellin' you to stop it then you don't You said you gonna stop it in my sleep But you won't!

Last week thought I saw you on the straight turn that was a bag of trash Just a big ol' bag of trash I thought you look like a bag of trash

Dream girl I pitch a tent when you stomp in the room Like a hellbound turkey mixed with a baboon Your sexy and your spicy like a bowl of Chex Mix And I always feel safe when I'm in your flesh mitts

Your teeth so clean coulda swore you were British Never take the Chex Mix cuz you always get skinnish Open clamps with both feet cuz your ambidextrous No point cuz we know you eat nothin' but Chex Mix

Chex Mix number one food snack in the land It's the cereal taste that you eat with your hand Chex Mix at your local grocer buy your box Your family will all say CHEX MIX ROCKS!

Chex Mix, your the snack for me, your the only one I'll ever eat or buy Chex Mix your delicious, you got 60% less fat than potato chips The end
