Fight, we can try
I'd love an answer that isn't sly
Or so, so you say
Don't toast the day before the twilight

For you I'm a pushover
I would, (if I could) I would
I just want you to say come on
Wish me luck
Wish me luck

Unkind girlish walk
Like a deed to the world without the talk
As you wade through the crowd
I sit next to you, the seat still warm

For you I'm a pushover
I would, (if I could) I would
I just want you to say come on
Wish me luck
Wish me luck

For you I'm a pushover
I would, (if I could) I would
I just want you to say come on
Wish me luck
Wish me luck

I just want you to say come on
I just want you to say come on
I just want you to say come on
I just want you to say come on
