I know I wasn't made to play on a team  
you weighed your suitcase down but it still wouldn't  
sink

I know that crime doesn't pay  
but I don't know any other way

the way that she smiles me down  
she claims to be clowning  
I finally long for someone  
teaspoon

two can just bleed into one  
but only one does the bleeding  
she calls me the alphabet gun  
teaspoon

I know I wasn't made to play on a team  
you weighed your suitcase down but it still wouldn't  
sink

I know that crime doesn't pay  
but I don't know any other way

She orders the pilot to land  
she just wants to hold the man  
well I am her pilot today
