The shroud of darkness is near  
And lord of this new frontier  
With wrath from below  
Has plagued your trances with fear

The winds of omen still cry  
In human screams to the sky  
With wrath from above  
The lord you tried to defy

"You betrayed me  
Now you beg for sanctuary here!  
Endless torture  
Warned you not to trust him  
Now you're damned!"

Victory! It is so close to me!  
I've taken earth today  
And now tomorrow Heaven  
Carelessly, you sold your souls to me  
And thought that you'd be free  
Don't you remember who I am?

Blasphemy! He's getting close to me!  
He's taken Earth today  
He'll soon destroy this kingdom  
Brought disgrace, upon the human race  
His ever lasting lies  
Are an abomination

The shroud of darkness is here  
I'm lord of this new frontier  
Below and above  
At last the Heavens are clear  
Create a new breed of man  
In my own image he'll stand  
And laugh from above  
Obey my every command

Leave this kingdom  
Damn you to the cell you built for me
