

The Lord Weird Slough Feg "Professor's Theme"

Visit "[Professor's Theme](#)" on MotoLyrics.com

And now comes the time to make you one
Experiment's stage has just begun
In asteroid mines the spores are grown
Creating the race to rape you

On the day when my work is done
And the races become as one
Overlapping nucleotides
Double helix is genocide

Bisecting the strand, apply the stud
Amalgamate Man with Vargr blood
Creating the race to rape you

On the day when my work is done
And the races become as one
Overlapping nucleotides
Double helix is genocide
On the day when my work is through
And the cosmos becomes a zoo
