The night was made for love
And the moon was high above
You whispered in my ear
Mmmm, you're so nice to be near

The lovelight in your eye
Was depression in disguise
I was so blinded, my dear
Mmmm, you're so nice to be near

[CHORUS]
Everything seemed so enchanting
You made me your?
How could I know you we're fooling
When you said
I'm yours till I die

[REFRAIN]
And now the mood is dark
Shadowed by
My aching heart
I've always been waiting here
Mmmm, you're so nice to be near

You are...
You are...

[Repeat CHORUS]

[Repeat REFRAIN]
