R-E-A-L

R-E-A-L

We are fighting as the mighty Real  
We come together if you're wondering how  
We've got the courage needed to never be defeated  
Man your battle fields now  
They lead the way to the front lines  
They are the red and blue army

R is for Royal

E is for Everybody

A is for Armour

L is for the Love of the game

We are fighting as the mighty Real  
We come together if you're wondering how  
It's a solid line  
We got the pattern goin we fight as hard as play  
They lead the way to the front lines  
They are the red and blue army  
They fought their way through the hard times  
They are the red and blue army

R is for Royal

E is for Everybody

A is for Armour

L is for the Love of the game

R-E-A-L! R-E-A-L! R-E-A-L! R-E-A-L!

The battle has begun  
We're movin' all as one  
Hear us now  
We never will back down  
The battle has begun

We're movin all as one  
Tall and proud  
Worthy of the crown

R is for Royal  
E is for Everybody  
A is for Armour  
L is for the Love of the game

The battle has begun  
We're movin' all as one  
Hear us now  
We never will back down  
The battle has begun  
We're movin all as one  
Tall and proud  
Worthy of the crown
