Some say sufferings not much  
But I say...  
We make sure to know  
We know a lot of who we're killing

We fell apart  
We all fell apart  
Underestimate what it means to me  
We fell apart  
We all fell apart  
Underestimate what it means to me

We're all different right?  
(We're all different right)

Age is one, other side, different lines,  
Different roles,  
Different rules to abide by,  
And all these lines self divide to races of men,  
Cause we're all different right?

We fell apart  
We all fell apart  
Underestimate what it means to me  
We fell apart  
We all fell apart  
Underestimate what it means to me

We're all different right?  
(We're all different right)

Step over,  
Step over that clever line,  
Gotta figure out which side is right,  
Choose a destiny to live by  
If you wanna live or die or fight  
And only one side wins  
And what I think of this I don't know  
It's not that I'm afraid of dying,  
It's just, I'm so afraid to live

Some say that clevers as they come.

But I say,  
We slowly learn to bite upon the sun

Perfect's finally gone and

We fell apart  
We all fell apart  
Underestimate what it means to me  
We fell apart  
We all fell apart  
Underestimate what it means to me

We're all different right?  
(We're all different right)

Step over,  
Step over that clever line,  
Gotta figure out which side is right,  
Choose a destiny to live by  
If you wanna live or die or fight  
And only one side wins  
And what I think of this I don't know  
It's not that I'm afraid of dying,  
It's just, I'm so afraid to live

Hate is what fuels our wars and bloody lips.  
Don't listen to love.  
But I can sing songs  
And I can sing about how I know  
I know that this is wrong

Step over,  
Step over that clever line,  
Gotta figure out which side is right, Choose a destiny to  
live by  
If you wanna live or die or fight  
And only one side wins  
And what I think of this I don't know  
It's not that I'm afraid of dying,  
It's just, I'm so afraid to live

Some say sufferings not much  
But I say...
