No more lies in shadows  
No more little games to reach the top  
Even if you say you don't  
Yeah yeah  
Knives under the table  
Smiles to show  
How nice you are

Animal in your head  
Buy those who don't sell  
I can read your thoughts  
And send you straight to hell yeah

Stay away - stay away  
I drink tru blood  
I'll show you who's shakin'

Guns are on the table  
Show me how you're able to kill them all  
Even if they sell their blood yeah yeah  
Show your teeth to a neighbour  
You'll be friends forever... animals  
Even if you think you're not yeah yeah

When you go home you're alone  
Pay somebody to feel love  
For your heart for your world  
For your desert  
There is nothing besides money money money  
Besides money money money  
In your head
