

The Lovecrave

"Warriors"

Visit "[Warriors](#)" on MotoLyrics.com

Little LED in my head
They didn't turn it off
I fix a wire
And give you power
We can wake them all

In a dark corner
Some broken robot's eyes
Flash red
A belief can make you
Feel alive
Where they're millions dead

Whenever they stop us
Whenever they close our minds
And they turn us off
We're the warriors

Whenever we wake up
Whenever we put our hands
Together together
We're the warriors

Take off the dust and the rust
Hold on to me and run
We can find a place where
A little LED becomes a sun

Cause a robot can be hero
Erasing programs in his head
For every rebel in the world
There are millions dead
