Let's go!

You tell me how to live my life,
But you don't live your own.
You're bark is louder than your bite,
Better leave me alone.
(It's war!)

[CHORUS]

This is why I chose to fight
Drink all day, rock all night
From the cradle to the grave
From the cradle to the grave
I will never be a slave
From the cradle to the grave
Oh, get out of my way!

Aah yeah!
It's like your six feet under ground,
Cuz your rotten to the core.
You know I'm never backing down,
It's a generation war.
(It's war!)

CHORUS

This is how I chose to live,
Give it all I got to give.
From the cradle...
To the grave

From the cradle to the grave (2x)

Don't tell me how to live my life,
Cuz you don't live your own (your own)
Your bark is louder than your bite
Better leave me alone

Chorus 2x
