"Kickin' It Old School"

I don't need to cut my hair
Don't need a job when ya livin' on welfare
I got a girl who thinks sex is a thrill
Don't need protection cause she's on the pill

You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school

I'm free balling in the hot summer heat
Skinny dippin' in the public beach
I got green leaf growing in my backyard
And homebrew stinkin' up the garage

You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school

Kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school

I'm in a band that plays rock'n'roll
We sing, songs about, rock'n'roll

You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school
You know I'm kickin' it old school

You know I'm kickin' it old school
Kickin' it old school
Kickin' it old school
Kickin' it old school
