Come on pretty baby and I don't mean maybe

Come on baby, make with the shake

Here we go a-strollin'

And we need no rock-and-rollin'

Come on baby, make with the shake

Come on, come on

Come on pretty baby, make the shake

[CHORUS]

Shake it pretty baby to the north

Shake it pretty baby to the south

Shake it pretty baby to the eath

Shake it pretty baby to the west

North, south, east, west

Shake it pretty baby, like the rest

Shake, shake

Start the Earth a-quakin'

And I really mean it's shakin'

Come on baby, make with the shake

Come on pretty baby and I don't mean maybe

Come on baby, make with the shake

Come on, come on

Come on pretty baby, make the shake

Shake, shake

[Repeat CHORUS 2x]

Come on pretty baby and I don't mean maybe

Come on baby, make with the shake

Here we go a-strollin'

And we need no rock-and-rollin'

Come on baby, make with the shake

Come on, come on

Come on pretty baby, make the shake

Shake, shake

[Repeat CHORUS]
