i've always been the one who waits for something good  
i'll leave it all to fate  
never seem to take a chance even when i should  
i always hesitate  
and i tell myself  
ill get it right, in time

oh oh oh oh oh  
throw your hands up and let it go  
oh oh oh oh oh

anything to make it better  
you give a little heart  
give a little soul  
are you  
it's now or never

oh oh oh oh oh  
throw your hands up and let it go  
throw your hands up and let it go  
let it go

i've always been the one that wants  
a little bit more  
when i have the least  
i never know what ive got until  
its out the door and out of reach  
and i tell myself ill get it right  
in time

oh oh oh oh oh  
throw your hands up and let it go  
oh oh oh oh oh

anything to make it better  
you give a little heart  
give a little soul  
are you  
it's now or never

oh oh oh oh oh  
throw your hands up and let it go

throw your hands up and let it go  
let it go

i keep an open mind  
whatever's there for me to find  
open mind  
somethings gotta give  
im open now and somethings gunna give

i tell myself  
ill get it right, ill get it right

oh oh oh oh oh  
throw your hands up and let it go  
oh oh oh oh oh

anything to make it better  
you give a little heart  
give a little soul  
are you  
it's now or never

oh oh oh oh oh  
throw your hands up and let it go  
throw your hands up and let it go  
let it go

i tell myself  
i-i-i tell myself  
i tell myself

ill get it right x 4

ya i tell myself ill get it right this time
