(Hidden Track)

I'm a hot dog  
Sittin in the fog  
Waitin for my day in the sun  
And I'm all alone  
Far away from home  
Just me, my mustard, and my bun

And though I miss you  
But time is on my side  
And though I need you  
But you and onions make me cry

And I'm all beef  
But I have a heart  
And it's splitting now that you've gone away  
And I wish everything was kosher as me  
But I'm not healthy for you anyway

And though I miss you  
But time is on my side  
And though I need you  
But you and onions make me cry
