I saw her dancin', dancin' in some smoke filled place,
yeah;
I'll bet that I was the only one who watched her face.
All night I never saw her smilin',
She didn't even try
You know for just a little while there
I saw a tear in her eye

Chorus

I got to back and watch that little girl dance
I got to back and watch that little girl dance

I'll sit and watch her and wait 'till I can get her alone,
Then I'll say "Baby, baby let me take you home,
I wonder how it is to lover her
I toss and turn in my bed
The way she moves to the music
Can't get it out of my head

Return to chorus

Dance for me baby, dance little girl
Wait for me baby, wait my little girl,

Return to Chorus

I got to get it out of here
And put on her shoes
Yes, that's what I said.

Return to chorus, fade
