Run Away  
Real McCoy

1-Run away, run away, run away and save your life  
Run away, run away,  
Run away if you want to survive  
(repeat)

Money, sex and thought control  
A generation without soul  
Perfect people in a perfect world  
Behind closed doors all in control

Lying, in a world of luxury  
Cold cash money mentality

2-You gotta keep the faith  
You gotta keep the faith  
You better keep the faith and run away  
(rpt 1)

3-It's time to break free, oh oh oh  
Run away, oh oh oh  
You better break free, oh oh oh  
Run away, oh oh oh

Money, sex and thought control  
Big brother is watching you  
Unlock your brain and save your soul  
No more limits, no more curfew  
Live in a perfect system  
Take a stand and fight for freedom  
(rpt 2, 1... 3, 2...)
