In the event of Armageddon, confess
Make your way calmly to the nearest place of worship
Your God awaits you
If your loved ones are disemboweled, do not panic,
God is with you
If your men succumb to biological agents, do not panic,
God is with you
In these last hours there will be great suffering and
much spilling of blood
Brains will boil and limbs will be scattered in ravishing
delight
The unspeakable carnage and ceaseless images of
decapitated children may seem senseless
But remember, God is with you
Hell is coming and yet heaven awaits the righteous
On gathering at your place of worship, pray to your
sovereign lord
Salvation is at hand
If you have sinned, confess
Confess or be cast into the pit of torment until the day
of judgement
But do not panic, God is with you
God is fucking with you [x14]
God is fucking you [x11]
God is fucking with you [x8]
