Watch your back!
I'm starting up again
Just to keep us from coming back.
Don't act like you're surprised.
We couldn't save it if we tried.
I'm tired of all the lies and so are you.

We were never a real thing,
All were was just two figures in the crowd
And that's all
And we'll say we'll change
But hey, it's bad news baby c'mon.
Let's face the facts.

Should I wait up for you every single night.
Well it doesn't even matter.
Cause I'm singing oh oh no.
You're in a situation you can't control.
Should I wait up for you every single night.
Well it doesn't even matter.
Cause I'm singing oh oh no.
You're in a situation you can't control.

Tell me how bad does it hurt
When I'm inside of her.
Tell me how bad does it feel.
I forgot.
You don't feel.
Go home and cry.
Go home and cry.
Take it all back.
I don't have the time.

The lips of our fate will become the ones of your loss
and my relief.
I'll taunt em right in your face
And show you how it's done.
Cause now my lips belong to another someone.

I am dying just to tell you I'm in love. [x4]

Watch your back!

I'm starting up again just to keep us from losing it.
I know that you were surprised
But I am leaving all the lies behind.
I know that you were surprised
But I am leaving all the lies behind.
A second chance for a brand new life

And I will wait here for you every single night
Well it doesn't even matter.
Cause I am singing oh oh.
