[Mekong Delta, J. Jenkins]

"Hello people, this is Jason, back again on channel 5,
here are the news:

Mr. President declared his mind for peace and
admitted the contra's support -

...All we need is economical development!

A congress member said: "He's wise..."

All I hear is lies (guns for freedom)

But they're true lies!

We are goddamn manipulated

We are so guilty at their truth

It's our duty to be true to ourselves

They move the mountains, the force of nature on it's
knees and they are your personal gods

Paper's patient, you can print the way you want it, black
on white - the reborn truth

...All we need is economical development!

A congress member said: "He's wise..."

All I hear is lies (guns for freedom)

But they're true lies!

We are goddamn manipulated

We are so guilty at their truth

It's our duty to be true to ourselves

These's danger in their speech, born from unholy
greed. Their lies made them believe in it.

Mr. President declared his mind for peace and
admitted the contra's support -

...All we need is economical development!

A congress member said: "He's wise..."

All I hear is lies (guns for freedom)

But they're true lies!

We are goddamn manipulated

We are so guilty at their truth

It's our duty to be true to ourselves

All I hear is lies!

All I hear is lies! (they dedicated what has been, so it
will be again.)

All I hear is lies! (the helpless'll get no sight to
compare...)
